

CCSK-P - CCSK - Certificate of Cloud Security Knowledge Plus

CSSK - CCSK - Cyber Security

Durata:

2 Giorni

Lingue:

Italiano

Certificazione:

-

Descrizione del corso

The CCSK Plus class builds upon the CCSK Foundation class with expanded material and extensive hands-on activities with a second day of training. Students will learn to apply their knowledge as they perform a series of exercises as they complete a scenario bringing a fictional organization securely into the cloud. This second day of training includes additional lecture, although student's will spend most of their time assessing, building, and securing a cloud infrastructure during the exercises Corso erogato in collaborazione con CSA Cloud Security Alliance Italy

Programma

MODULO 1 - Introduction to Cloud Computing

- NIST definitions
- Essential characteristics
- Service models
- Deployment models

MODULO 2 - Infrastructure Security for Cloud

- Securing base infrastructure
- Management plane security
- Securing Virtual Hosts and Networks
- IaaS, PaaS, SaaS security

ESERCITAZIONE 1 - Core account security

- Secure root account
- Configure baseline security monitoring

ESERCITAZIONE 2 - Iam & monitoring in-depth

- Iam & entitlements
- Monitoring & alerting

MODULO 3 - Managing Cloud Security and Risk

- Risk and Governance
- Legal and Compliance
- Audit
- Data governance

ESERCITAZIONE 3 - Network & instance security

- Secure a virtual private cloud (VPC)
- Launch, Secure, and Connect to Instances

MODULO 4 - Data Security for Cloud

- Cloud Data Architectures
- Data Security and encryption
- CASB and Data Loss prevention
- BC/DR

ESERCITAZIONE 4 - Encryption and storage security

- Encrypting an ebs volume
- Review your inspector findings

MODULO 5 - Securing Cloud Applications, Users and related technologies

- Application Security
- Identity and Access management
- Related technologies

ESERCITAZIONE 5 - Application security & federation

- Federate identity with openid
- Connect to a partner site via openid

MODULO 6 - Cloud Security operations

- What to look for in a cloud provider
- Security as a Service
- Incident response

ESERCITAZIONE 6 - Risk & provider assessment lab

- Evaluate a Cloud provider using CCM
