

AI-3002 - Create document intelligence solutions with Azure AI Document Intelligence

Microsoft - Azure - Artificial Intelligence

Durata:

1 Giorno

Lingue:

Italiano

Certificazione:

-

Descrizione del corso

In this course, you will learn how to implement solutions by using Microsoft Azure AI Document Intelligence. Specifically, you'll learn how to:

- Design a solution that analyzes your business forms by using Azure AI Document Intelligence.
- Create a solution that analyzes common documents by using Document Intelligence.
- Create a solution that analyses different custom form types by using Document Intelligence.
- Combine multiple Document Intelligence models into a composed model.

Audience Profile

The primary audience for this course is application developers seeking to include document intelligence in their applications. Students should have experience programming in either Python or C#, be familiar with the Azure portal, and be comfortable provisioning Azure AI resources.

Programma

- Introduction
- Prebuilt models
- Custom models
- Composed models
- Advanced features
