

AI-102T00 - Designing and Implementing a Microsoft Azure AI Solution

Microsoft - Microsoft Azure - Artificial Intelligence

Durata:

4 Giorni

Lingue:

Italiano

Certificazione:

-

Descrizione del corso

After completing this course, students will be able to:

- Plan and manage an Azure AI solution
- Implement decision support solutions
- Implement computer vision solutions
- Implement natural language processing solutions
- Implement knowledge mining and document intelligence solutions
- Implement generative AI solutions

Audience profile

Microsoft Azure AI engineers build, manage, and deploy AI solutions that make the most of Azure Cognitive Services and Azure services. Their responsibilities include participating in all phases of AI solutions development—from requirements definition and design to development, deployment, integration, maintenance, performance tuning, and monitoring.

Programma

- Introduction to AI and Azure AI Services
- Develop computer vision solutions with Azure AI Vision
- Develop natural language processing solutions
- Develop Generative AI Solutions with Azure OpenAI Service
- Create knowledge mining solutions Develop solutions with Azure AI Document Intelligence
- Develop solutions with Azure AI Document Intelligence
