

IT-SISE - Implementing and Configuring Cisco Identity Services Engine

Cisco - CCNP Security - Networking

Durata:

5 Giorni

Lingue:

Italiano

Certificazione:

Cisco Certified Network Professional Security

Descrizione del corso

The Implementing and Configuring Cisco Identity Services Engine (SISE) v3.0 course shows you how to deploy and use Cisco® Identity Services Engine (ISE) v2.4, an identity and access control policy platform that simplifies the delivery of consistent, highly secure access control across wired, wireless, and VPN connections. This hands-on course provides you with the knowledge and skills to implement and use Cisco ISE, including policy enforcement, profiling services, web authentication and guest access services, BYOD, endpoint compliance services, and TACACS+ device administration. Through expert instruction and hands-on practice, you will learn how to use Cisco ISE to gain visibility into what is happening in your network, streamline security policy management, and contribute to operational efficiency.

Programma

- Section 1: Introducing Cisco ISE Architecture and Deployment
- Section 2: Cisco ISE Policy Enforcement
- Section 3: Web Auth and Guest Services
- Section 4: Cisco ISE Profiler
- Section 5: Cisco ISE BYOD
- Section 6: Cisco ISE Endpoint Compliance Services
- Section 7: Working with Network Access Devices
