SC-300T00 - Microsoft Identity and Access Administrator

Microsoft - Microsoft Security - Cyber Security

Durata: Lingue: Certificazione:

4 Giorni Italiano Microsoft Certified: Identity and Access

Administrator Associate

Descrizione del corso

The Microsoft Identity and Access Administrator course explores how to design, implement, and operate an organization's identity and access management systems by using Microsoft Entra ID. Learn to manage tasks such as providing secure authentication and authorization access to enterprise applications. You will also learn to provide seamless experiences and self-service management capabilities for all users. Finally, learn to create adaptive access and governance of your identity and access management solutions ensuring you can troubleshoot, monitor, and report on your environment. The Identity and Access Administrator may be a single individual or a member of a larger team. Learn how this role collaborates with many other roles in the organization to drive strategic identity projects. The end goal is to provide you knowledge to modernize identity solutions, to implement hybrid identity solutions, and to implement identity governance.

This course is preparatory for the Exam SC-300: Microsoft Identity and Access Administrator valid for Microsoft Certified: Identity and Access Administrator Associate
