

# OCI\_AUTW - Oracle Autonomous Database Workshop

Oracle - OCI - Virtualizzazione e Cloud

Durata:	Lingue:	Certificazione:
4 Giorni	Italiano	-

## Descrizione del corso

This training teaches you how to provision an Oracle Autonomous Database Cloud Service instance on Oracle Cloud that is suitable for your workload and requirements. This is a great starting point for developers, administrators, architects

### Programma

- Course Overview: Introduction
- Overview of Autonomous Databases
- Creating an Autonomous Database on Shared Exadata Infrastructure
- Managing Autonomous Database Using OCI Console
- Connecting to Autonomous Database
- Development and Administration Tools for Autonomous Database
- Data Loading
- Querying External Data with Autonomous Data Warehouse
- Moving Data from Autonomous Databases
- Backing Up and Restoring an Autonomous Database
- Cloning & Moving Autonomous Database to a Different Compartment
- Managing and Monitoring Performance
- Maintenance Activities for Autonomous Databases on Shared Exadata Infrastructure
- Autonomous Database with Private Endpoint on Shared Exadata Infrastructure

#### ITCore Group

Via Balestra, 12 6900 Lugano (CH) +41.091.9760019 www.itcoregroup.com Via Lanino, 36 21047 Saronno (VA) +39.02.84108669 www.itcoregroup.com

- Sending Mail with Email Delivery on Autonomous Database
- Managing an Autonomous Database Using Command Utilities and APIs
- Wallet Security, Data Safe, and Oracle Database Vault
- Enabling Autonomous Data Guard
