

DP-3007 - Train and deploy a Machine Learning Model with Azure Machine Learning

Microsoft - Microsoft Azure - Artificial Intelligence

Durata:

1 Giorno

Lingue:

Italiano

Certificazione:

-

Descrizione del corso

- Make data available in Azure Machine Learning.
- Work with compute targets in Azure Machine Learning.
- Run a training script as a command job in Azure Machine Learning.
- Track model training with MLflow in jobs.
- Register an MLflow model in Azure Machine Learning.
- Deploy a model to a managed online endpoint.

Audience profile

Your responsibilities for this role include:

- Work with data and compute in Azure Machine Learning.
- Running command jobs to train and track machine learning models.
- Deploy MLflow models to managed online endpoints.

This course will be retired on April 2025

Programma

- Introduction
- Configure the Azure Machine Learning workspace
- Train and track machine learning models in Azure Machine Learning
- Deploy a model with Azure Machine Learning
